

BA21H

Backbar Cooler

Product Features

- EU Energy Class A
- Approx. 59% more energy efficient than previous range
- Ventilated cooling for fast pull-down and even temperature
- Energy saving variable speed compressor
- Double glazed tempered glass
- Hinged alu-framed glass doors
- Easy access electronic thermostat
- Adjustable shelves behind each door
- LED interior light
- Lock

High-quality backbar with low energy consumption

The BA is our range of high-quality backbars. It has been updated and now uses in average 59% less energy compared to the previous models from the same range. This backbar has ventilated cooling for a short pull-down time to ensure that you can keep up with customer demand for cold beverages. If you need to adjust the temperature this is easily done on the electronic thermostat.

The backbar cooler is made of solid materials and has adjustable chrome shelves with closely-spaced wires, which gives you a high capacity and stability. Furthermore, it has hinged aluminium doors with double glazed tempered glass. This helps save energy, but it also means a great product visibility.

The BA range is also available in a variant with self-closing sliding doors.

Measures and Content

Gross / Net Weight	kg	70 / 64
Net Volume	l	188
Gross Volume	l	196
Gross / Net Volume	l	196 / 188
