Gastronorm pizza counter with granite worktop

The PT pizza counter is an outstanding choice for pizza makers. Crafted from SS304 stainless steel, this counter is built to last and easy to keep clean. It boasts a granite tabletop, which is ideal for creating flawless pizzas as the granite stays cool, making it harder for the dough to stick to the worktop. The pizza prep table includes convenient features such as automatic defrost for a seamless operation, adjustable feet for stability, and fan-assisted cooling to maintain consistent temperatures. It has GN1/1 cupboards with adjustable shelves, but it is also possible to have it customized with GN drawers if you prefer. Should the need occur, it is also possible to retrofit a refrigerated topping unit suitable for GN pans.
