

UD2-32

GN3/1 Uni-Drawer

Product Features

- Two drawers individually switchable cooling/freezing
- Easily switchable between cooler and freezer
- Maximized storage space
- Suitable for GN pans (max. depth 150 mm)
- Ventilated cooling for fast pull-down and even temperature
- Automatic defrost
- Maximum load capacity per drawer: 60 kg
- Maximum load capacity of table top: 240 kg

Uni-drawer for GN3/1 pans

The UD uni-drawer features a smart system that lets you switch the temperature individually for each drawer between cooling and freezing at the touch of a button. Ideal for compact professional kitchens, each module offers precise temperature control, with settings from -22 to -18°C for freezing or +2 to +8°C for cooling.

The uni-drawer is designed to accommodate GN pans up to 150 mm deep, but it can also be used without gastronorm pans. Its reinforced top plate supports heavy countertop equipment, including deep fryers and ovens, making the most of valuable workspace by creating additional prep space.

With the UD uni-drawer, you get a flexible and robust solution with reliable performance – built to meet the demands of busy professional kitchens.
